## A Defined Bargain,

That is as Webster defines it according to his Dictionary, a bargain is, "a gainful or satisfactory transaction."—Mind that word "satisfactory." Our definition of bargain varies not one jot from accepted authority. In this store of ours the transaction is always "gainful"—for you—"satisfactory"—for both. And here's a sample lot of "bargains" as we understand the term.

of furniture hallowed by association with Lincoln. Chief among these are an old mahogany hair-cloth sofa and (Special Washington Letter.) The people of the republic live in the present and care very little for the incidental details of American history. or for the current events which will be of important historical value to future generations. We do not preserve our landmarks, as the peoples of the old world are accustomed to do.

For example, Old Ford's theater, in the judgment of many, should have been preserved just as it was on the occasion of the assassination of Pres-ident Lincoln. It should never have long years ago to have purchased and 1 Lot Palmer's "Ar- 1 Lot beautiful Silk of representatives, but nothing came

> The house is now leased by the Memorial Association of the District of Columbia. This Memorial associa-tion is composed of some of the leading citizens of the country, presided over by Chief Justice Fuller, of the United States supreme court, and is actuated by purely public spirited motives. Al-though its members have met with comparatively little encouragement from congress so far, they have, at their own expense, leased this prop-erty for one year, in the hope that by the expiration of that time the national legislature will see the wisdom and

al legislature will see the wisdom and appropriateness of purchasing the property outright for a national museum of relies of the martyr president. Upon all great occasions which bring throngs of people to the national capital the thousands or tens of thousands of visitors seek the spot where Lincoln died. The house has been maintained as a private residence. Percale shirt where Lincoln died. The house has been maintained as a private residence so that the interior could not be seen explore annoyance to the family residence. Finally the owner was sailed topon so many times by sightnesses that he concluded to charge an admission fee to those who wanted to see mission fee to those who wanted to see the bedroom which became so suddenly and so sadly historic. The Memorial association wants the house to be open

to the public free. The large collection of Lincoln relies Capt Olroyd was custodian.

The Memorial association regards the Olroyd collection of about three

of the tragedy. And in the same thousand pieces as a good nucleus of a nany of them picturing the president in humorous or grotesque attitudes. In this literary collection there are funeral odes innumerable.

nson, both from Illinois, are anxious to secure an appropriation for the purchase of the property and the main-tenance of a Lincoln museum. Senator Palmer, of Illinois, carried through the war a major general's commission which was given him by President Lincoln. He also took great interest in this matter from the inception of the idea. The Illinois members of the house of representatives are in carnest about it, and their efforts are seconded by encouragement from the representatives from other states. Many southern men come forward and say that Lincoln belongs to the entire country, and his memory is a common heritage. Bishop Keane, of the National Catholic university, says: "The longer 1 live, and the more I love America, the more I thank God for the example of Lincoln. He was a man whom God made

about the purchase of the property on Tenth street. Talking with a friend that the appropriation will be made in the sundry civil bill. That is the in-tention of the committee on appropriations; and I am confident that congress will ratify their report. It is too bad that something was not done long ago to preserve both the house and the old

The Lincoln museum is only one thronged and busy thoroughfare of the national capital. It is midway between the treasury and interior departments. The street is a quiet one, for there is no business transacted there, and the residences are few. Above the front door there is a marble slab with an inscription concerning Lincoln's death. The building is accessible from any part of the city, because all of the street-car lines cross Tenth street, to the north or south of the locality. The semi-spiral iron staircase which leads from the payement to the front door bears to the portals daily some American pilgrims to this Mecca of the republic. Standing in that door they may look across the narrow street upon the old theater, and over the course traversed by those who bore the body of the stricken chief magistrate. Through the narrow hallway to the historic back room the visitors first are shown. After viewing, with ancovered head, the hallowed spot, the visitors go from room to room, looking at the collected relics, and some of them write notes in their diaries to re-mind them of things they have seen
